A LOOK BACK AT 2022

For the first time since 2015, enrollment at Piedmont Technical College has surpassed 5,200 students. It's a milestone manifested by a committed faculty and staff who truly slayed the grindstone to bring our numbers up where other colleges saw pandemic-related declines.

Furthermore, our enrollment for the fall term 2022 was 17% above last year. Without question, the no-cost tuition option, which we have offered for three semesters now, has been a powerful factor. But students won't enroll — even for free — unless they have confidence in their decision.

This past year, with critical support from the PTC Foundation and significant funding action by our state legislators, we secured resources to renovate and expand PTC's healthcare education facilities. Every year, we confer more than 350 degrees to graduates in healthcare professions. That number is certain to grow.

Another boon is happening in Edgefield County, where essential funding has been secured to help construct a new PTC advanced manufacturing center that will be a technological showplace and provide training space for our industry partners. In addition, PTC will revamp existing space to provide a needed conference center that includes an exhibit hall, a ballroom, and breakout spaces.

Year after year, we tell our students to "expect more" at PTC, and year after year, we are able to deliver.

Working together, we are truly stronger. Working together, we are growing. And working together, we are changing lives and communities.
